Lemonade-Powered Boss Battles!

Pick a Hero from upcoming game **The Big Squeeze** and use your lemonade prowess to defeat bosses in **One-Hit Heroes.**

Instructions
Print and cut out the cards. These alter the starting deck of existing Heroes.

To play as Jack: Start with the Caceus deck, but replace him and his starting Items with Jack, Assemblemon Line and Temporal Twist.
To play as Dinah: Start with the Sofia deck, but replace her and her starting Items with Dinah, Lemibrary and Sourspren.

If you do not have sleeves available, and you don't want to start with either or both of these Items in play: use the original starting items (i.e. Plague Ward, Sniper RIfle, etc) as a proxy while it's in your deck and hand. Then once it enters play, replace it with the card of the matching index code. (Plague Ward -> Assemblemon Line.)
